

DAY 03

PROGRAM

```
java=float(input("enter the value:"))
python=float(input("enter the value:"))
Mysql=float(input("enter the value:"))
print("total:",java+python+Mysql)
print("average:",java+python+Mysql/3)
print("percentage:",java+python+Mysql/3*100)
print("remaining marks:",300-java+python+Mysql)
```

OUTPUT

enter the value:80

enter the value:90

enter the value:70

total: 240.0

average: 193.33333333333334

percentage: 2503.3333333333333

remaining marks: 380.0
